**Top view and chill**

One of the best view I had in my life. I have spent there week of my holidays enjoying the pool, food, room - just having chill in a luxury place. Very comfy room and clean pool. Supernice and friendly staff who is always there for you. Good local recommendations. Basically the whole are around is just magnificent and I would love to return as soon as possible!!

**Best experience ever**

I have been numerous times in Cocuyo in different rooms and each time I fall in love more than the last. The views are breathtaking, the place unique and the food and staff unbeatable. They have a sailboat called "El Soplao" in which they make different excursions, to Cayo Levantado and the National Park of Los Haitises, of course I recommend it 100% and more if it is whale season, where you can enjoy sailing in search of them. I will keep coming back every year.

**Unique stay**

We rented three rooms for seven people. The purpose of the trip to was for hiking and Cocuyo certainly went along with the whole experience. The pool was astounding, in fact we didn't plan to enjoy it yet we managed to spare some time to enjoy the pool, which recreates a pond in the wilderness. Food was tasteful and packed with variety. We'd fruits, bread, jam, yogurt, eggs, coffee, for breakfast and for dinner some local dishes. We stayed for two nights. Lunch is available if requested. Complimentary water is available at all times (plastic bottle free). Other drinks available at a fair price. All of these backed by a young crew, respectful and diligent. Which, if requested, know places and people who may take you to other breathtaking locations in Samana.
